World Health Day was observed on April 7, 2025. Theme of this year was "Healthy Beginnings, Hopeful Futures," focusing on maternal and newborn health to end preventable deaths and invest in quality care for women and babies from pregnancy through postpartum. We observed this day by conducting a skit by IV year students at Perumkadavila PHC. The main aim of the skit was to make the public aware about the urgent actions needed to keep humans and the planet healthy and foster a movement to create societies focused on well beings. Through this skit the students also made aware about air pollution, water pollution, inadequate sanitation including solid waste managements and risk of hazardous chemicals.
